

## She Loves to Move™ Lyrics

From the moment she could walk  
she began to dance  
Up on her toes she would prance through the room  
Spinning and twirling to her own made up tune  
A tiny ballerina  
Oh, if you could have seen her  
You'd have known right then  
dance was the language  
she was born to speak

She loves to move  
Poetry in motion  
Like waves on the ocean  
Like birds in sky  
With each turn and step  
And each pirouette  
The joy in heart comes alive  
She's like a flower in bloom  
She loves to move

It's a passion in her soul  
A rhythm true and deep  
Something inside her she needs to express  
The music begins and her spirit says yes  
The air becomes her canvas  
What a picture she paints as she dances  
We are blessed to see  
The gift she's been given  
This was meant to be

### **Chorus**

A vision of pure magic  
Tripping the light fantastic  
So beautiful  
With grace overflowing  
She was made for this

### **Chorus**

She's like a flower in bloom  
She loves to move
